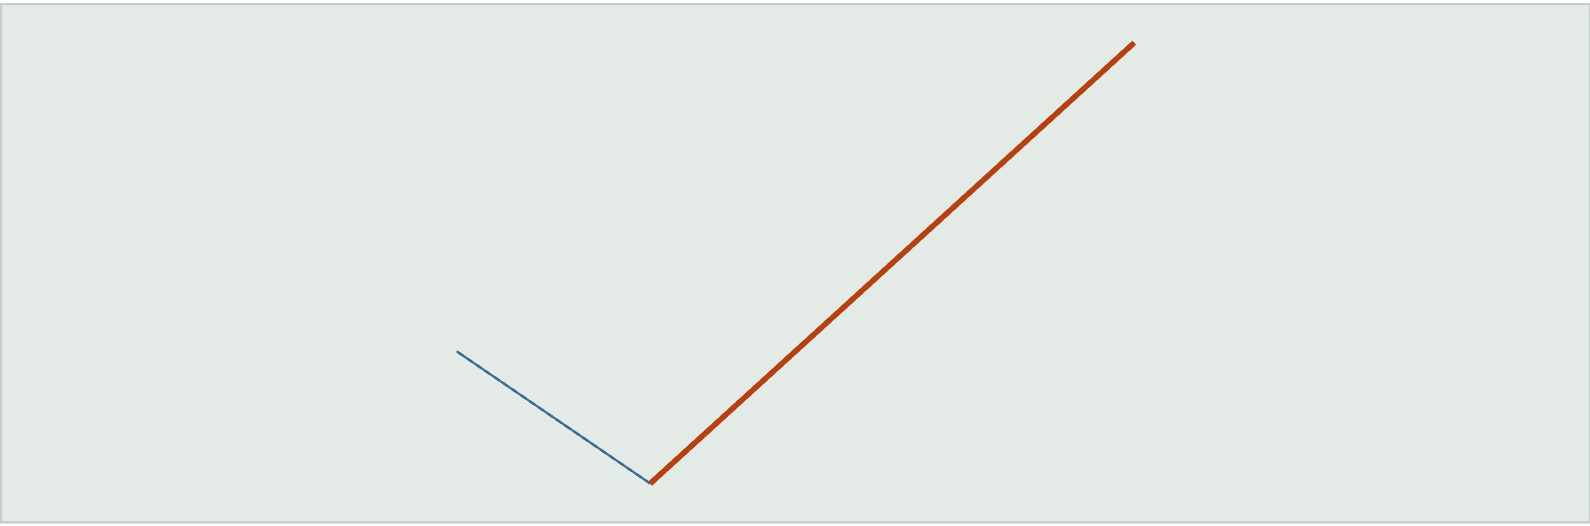
A working routing experiment. Set your limits, review the interpretation, then explore a simulated outing.

Simulation only. Choose rules, a recorded model example, or opt-in live AI. Check every interpretation. January 15, 2027, 10:00 local; assumed timings and opening states. Real terrain is unreviewed.

Mountain sketch

Fictional terrain · not to scale



Dashed: lifts · Solid: pistes · Orange: selected outing

Original fictional graph.

03 / Pocket itinerary

20 estimated minutes · 4 itinerary steps · simulation only

Recorded Qwen3-8B output from a verified live app call—not a new inference. Hard exclusions corrected by the user.

1. Lift: Summit chairlift
2. Piste: Blue descent · blue
3. Lift: Summit chairlift
4. Piste: Blue descent · blue

Research prototype. No live lift status, avalanche advice or turn-by-turn navigation. Rules and recorded mode make no model calls. Opt-in live mode sends text to Tinker and retains private local run records. Terrain data: © OpenStreetMap contributors, ODbL, when Alpendorf is selected.
